### **Clinton Lead Cut in Half from August** *(Clinton 47% - Trump 42% in 2-way and Clinton 45% - Trump 39% in 4-way)*

EAST LANSING, Michigan --- The latest Fox 2 Detroit/Mitchell Poll of Michigan shows former Secretary of State Hillary Clinton leading businessman Donald Trump by a 5 percent margin in a two-way race (47%- 42% with 11% undecided) and by a 6 percent margin in a four-way race that includes Libertarian Party candidate former New Mexico Gov. Gary Johnson and Green Party candidate Dr. Jill Stein. In the four-way race it is Clinton 45%, Trump 39%, Johnson 7%, Stein 1% and 8% undecided.

In the last FOX 2 Detroit/Mitchell Poll conducted August 9-10, Clinton led by 10% in a two-way race (49%-39% with 22% undecided) and by 11% in a four-way race (Clinton 44%, Trump 33%, Johnson 9%, Stein 5%, with 9% undecided).

The IVR (automated) poll of 940 likely voters in the November 2016 General Election was conducted by Mitchell Research & Communications on September 6-7, 2016 and has a Margin of Error of + or – 3.2% at the 95% level of confidence.

“Trump has cut Clinton’s support in half in a two-way race and almost in half in a four-way race. In the four-way race, Clinton only dropped one percent from a month ago while Trump gained six percent. The two third party candidates both lost support, Johnson dropped from 9% to 7% while Stein went from 5% to 1%. Although Clinton is still in a strong position, the race in Michigan has tightened as result of Trump running a more disciplined campaign and Clinton’s ongoing email problems,” Steve Mitchell, CEO of Mitchell Research & Communications said.

Since this is a four-way contest in Michigan, we will examine crosstabs in that contest.

At this time, third party candidates seem to benefit Clinton slightly more than Trump in Michigan, which is the opposite of what we’re seeing in other states and nationally.

“Clinton continues to dominate with women, leading by 16 percent (50%-34%) while Trump leads with men by 6 percent (46%-40%). Clinton has a 13 percent lead with 18-44 year old voters (47%-34%) and with 65 + voters (52%-39%). Trump leads by 3 percent with 45-64 year olds (43%-40%).

Clinton continues to be stronger with Democrats (91% in the four-way) than Trump is with Republicans (85% in the four-way). However, in the two-way test Clinton (91%) and Trump (88%) are almost tied. The GOP voters seem to be finally rallying around their nominee. In the two-way race, Trump leads with independents (42%-18%) by a 2:1 margin. But, in the four-way contest, Johnson (38%) leads both Trump (22%) and Clinton (6%), who is far behind," Mitchell continued.

Other key findings:

- Both Clinton (41% Favorable-53% Unfavorable) and Trump (33%-62%) are very unpopular, with Trump being the least liked.
- Thirty-six percent said Bill Clinton's Labor Day visit made them more likely to vote for Hillary Clinton while 43% said less likely.
- Forty-two percent said Trump's trip to Detroit to visit an African-American church made them more likely to vote for him while 50% said less likely.
- Forty-three percent said Trump's trip to Mexico City and his immigration speech in Arizona made them more likely to vote for him while 50% said less likely.

"The race has tightened, but with three debates to come, we are likely to still see more volatility in this campaign over the next two months," Mitchell concluded.

**Methodology:**

Mitchell Research & Communications used a sample of registered voters in the November 2016 Michigan General Election. Our goal is to spread as wide a net as possible to assure we survey voters who may not have voted in elections for a long time. A double filter was used to determine that we were surveying only likely voters.

- First voters had to say they were registered voters. If they were not, the phone call ended.
- Then, they were asked if they were definitely voting, probably voting, not sure yet, or definitely not voting in the November General Election. If they were "definitely not voting" the phone call ended.

Federal law only permits us to call land lines when using automated phoning. Any surveys that doesn't specify if they use cell phones do not use them. Data is weighted to reflect likely voter turnout by gender, age, and race.

*(Steve Mitchell is CEO of Mitchell Research & Communications, an East Lansing, Michigan based national polling and consulting company. He is currently political pollster for FOX 2 Detroit. He has polled with great accuracy for the media in Michigan, South Carolina, Florida, Missouri, Illinois, and California. An examination of RealClearPolitics.com will show that in final polls before the election in races for president, U.S. Senator and governor in Michigan, his final poll results have been off by an average of only 2.75% from actual results 2008-2014.*
